

Dentisoft is pleased to introduce two new capabilities for users of Dentisoft Office Online:

1. The Daily Check-up: Today's busy practice is challenged to stay in touch with its financial performance. The Daily Check-up is an automated daily email giving recipients key financial statistics, like: Production, Collections, New Patients, etc. A sample of the email you will receive can be seen below. Dentisoft will build upon this concept in the coming months based upon user feedback, however we anticipate additions to the key statistics covering: scheduling efficiency, appointment confirmations, lab tracking, marketing results, office flow (wait times, procedure length, etc), customer satisfaction, receivable, supplies tracking, procs/utilization, and others.

To initiate the service, you must have Level 9 access. Go to User Manager >Edit User, and select the profiles of those you wish to receive the Daily Check-up. Add their respective email addresses (note that user passwords are necessary to make any change to a User's Profile), and then choose Save. Then go to Office Manager>Edit Office, choose the check box next to Daily Check-up and choose recipients. Place a check next to any user who is to receive The Daily Check-up and click Save. You will then return to the Office Manager screen. Choose Save to complete the set-up. The email will be generated at approximately 4:00 a.m. each day, and display the previous day's performance.

Sample Office- Your Daily Check-up

Key Statistics for 7/28/2006

Credit Adjustment: (\$30)

Debit Adjustment: \$60

Not Patient Responsibility: (\$30)

Professional Courtesy: (\$12)

Other: (\$-120)

2. E-billing statements: DentalAppointments.com and online bill-payment is growing exponentially. Thousands of consumers visit DentalAppointments.com each day and hundreds of dental offices have given their patients access to their very own homepage on DentalAppointments.com for scheduling requests, patient communications, and bill payment. Dentisoft Office Online is seamlessly integrated with those patient homepages, and now when you complete your billing statement cycle each month, you can automatically send your patients an email letting them know that they can pay their bills online. Online bill payment requires that you (a) have activated your DentalAppointments.com directory listing (free with Dentisoft Office Online), and (b) you have signed-up for Dentisoft's exclusive Virtual Payment Terminal. If you have any questions about activating your office or signing up for Virtual Payment Terminal, please contact Dentisoft technical support at 1800-847-7638.
